At this time there was a walk on item #6. Attorney Cannon explained that the application from KKDP, Inc. is in your packet for consideration to grant a waiver of the 1,000 feet exception. She stated the criteria that is being taken into consideration. She further stated that there is an application before you for consideration and Council also has two resolutions in their packet – one approving and one disapproving the exception. She said that Council can entertain either approving or disapproving the proposed application. Ms. Keyes-Maloney said that in light of the record put forth by the applicant as well as the criteria, this is a very limited exception, but she believes in her own estimation that the applicant does satisfy the criteria of the exception and that the unique use within the 1,000 feet is associated with a restaurant in comparison to a tavern and this would offer it more as a tavern/package good store and she is inclined to consider approving the application. President Schroth stated that the restaurant sells no packaged goods. Ms. Wollert encouraged support of this particular issue because they almost meet the 1,000 feet limit. There are no other package goods stores within a couple of miles. There is no public use, it’s in a strip mall; the owners of the Metro Grill have no issues with this and she hasn’t heard that our police department has an issue with it. She believes that they have satisfied the requirements set forth. Mr. Baxter said that for the record, when we first visited this issue, in regards to the exception clause, he was against it and voted no for that clause to be instituted. He further said that hearing the testimony and mainly because the Metro Grill has no problem with them being there, he thinks they would have a vibrant business and he will go along with the exception.
