STATEMENTS AND COMMENTS FROM MEMBERS OF THE PUBLIC FOR ITEMS NOT ON THE AGENDA

George Steward (30 Gilmore Road) commented that the new website was not ready to go live and then listed a number of issues with it: the lack of a search function on the homepage, the link panel on the homepage is not functional, only the April calendar is populated. Mr. Steward remarked that the website should be better considering the amount of money the Technology Department has gotten the past couple of years. Mr. Steward said that he wants to have a meeting with the Administration to give his insight, opinion and suggestions from a user’s point of view. Mr. Steward then asked for a timeline of meetings related to the budget between now and the Public Hearing for the budget listed as April 26th.

President Schroth replied that next Tuesday, April 19th at 6:00 p.m., we will have presentations from each of the Department Heads concerning their budget requests.

Mr. Steward requested that Council consider allowing the Public to take part in the question and answer process with the Department heads.

President Schroth replied that it is simply the Department heads presenting their budget requests and it is not part of the public discourse.

The Attorney explained that the Public Hearing may not take place sooner than twenty-eight days. These presentations are an information session for Council; Township employees should not be interrogated by the Public while presenting their budget. If a member of the Public has an issue with the budget or a comment, the Public should bring it up with Council. The Attorney added that at every public meeting there is a time for Public comment.

Councilwoman Keyes-Maloney remarked that it is the same process used by the State Legislature concerning the State budget except that the Public is not even allowed to speak during that meeting. Our meeting will allow the Public to speak.

Mr. Steward remarked that he could come up with a hundred questions that he could not get answers for in the five or ten minutes that are allowed. Because taxes support six percent of this budget, Mr. Steward stated that he wants to be more a part of this process.

President Schroth remarked that if you have questions afterward, you can follow-up with us and we will ask on your behalf.

Mr. Steward responded that it should be made more apparent that the Public will be able to comment.

Vice President Steward clarified that there will not be comments after each department presentation but at the end of the meeting.

There were no additional questions or comments from the Public.

STATEMENT

This Ordinance to permit an increase in the Municipal Budget to 3.5% over the previous year's final in cap appropriations and to establish a CAP bank in accordance with law.

President Schroth said that this is standard procedure.

The Attorney explained that this is adopted annually and is good for two years on a rolling basis. It is a way to reward towns who are fiscally responsible; it establishes a "rainy day" fund.

The Administrator gave the example of Hurricane Sandy.

Councilwoman Keyes-Maloney added that with the property tax levy it becomes even more critical that we do this on an annual basis.

There were no additional questions or comments from Council. Ms. Keyes-Maloney made a motion to open the Public Hearing, seconded by Ms. Steward. It was agreed by unanimous voice vote.

George Steward (30 Gilmore Road) said that this is just Council giving the Township permission to spend this money in the event that it is needed over the next couple of years. It raises the appropriation limit to three and one-half percent.

About one million dollars available this year will expire if not used. Mr. Steward said that he has heard a number of reasons why this is necessary and then read the portion of the Ordinance which said that it be in the interest of promoting the health, safety and welfare of the citizens. Mr. Steward asked Council to keep this in mind – it is Council acting on behalf of the citizens. Mr. Steward stated that there are no assessments based upon the possible use of this money.

The Attorney explained what a cap bank is.

Mr. Steward then said let us say that there is a need to use that million dollars this year. What does that million dollars due to the budget when it is used as right now the budget is balanced without that million dollars. How does that get reconciled with offsetting revenues to keep the budget balanced.

The Attorney said that it is a budgeting tool; you have to have it. You put it in your budget; you do not put it in later.

The Administrator said that it still has to come before Council; it would be treated like an emergency appropriation.

Councilwoman Keyes-Maloney added that it still has to be appropriated. DCA requires it, without this flexibility you do not have room to handle situations like Hurricane Sandy. School districts have similar authority. President Schroth said that even if we use this, we are still under the cap. Mr. Steward, Council, the Administrator and the Attorney then further discussed the cap bank.

There were no additional questions or comments from members of the Public. Mr. Baxter made a motion to close the Public Hearing, seconded by Ms. Keyes-Maloney. It was agreed by unanimous voice vote. Ms. Keyes-Maloney then moved the Ordinance, seconded by Mr. Baxter. President Schroth asked for a roll call.
